## CONCLUSIONS

- Against the double oppression, understanding its origins economic, political and social we intend to encourage women's movements in our countries to take in their hands to fight for their rights aimed at their release.

- That the economic crisis generated whom paid and not the people who suffer.

Failure to pay foreign debts incurred by dictatorships unfair.

- We agree to get drafted in the National Meeting of Argentine women: Sex Education To decide Abort and No Contraceptives for Legal Abortion for not dying. Demanding that the 3 instances are guaranteed by the state without the interference of the Church.

- We express our solidarity with the social struggles and social activists who are persecuted for participating in this: No to the criminalization of social protest.
- Separation of Church and State does not impact on the policies themselves.
