

Solidarity with Shiela of Nepal on the issue of visa refusal by the German government

The World Coordinators of the World Women's Conference stand in solidarity with our co-coordinator, Shiela of the ANWA-R (Nepal), whose application for a Schengen visa was refused by the German emba, thereby denying her free exercise of her democratic right to participate in this important process of the World Women's Conference as co-coordinator for the Asian region. We take such visa refusal as a conscious attack of the German government on the world's women's enduring struggle to forge mutual exchange, support and cooperation towards strengthening our international solidarity.
