

Dear members of the European Conference and for the 8<sup>th</sup> of March 2015 and dear all women in Europe!

## Our call goes to all women in Europe for a militant and future-oriented 8<sup>th</sup> March in international solidarity!

The successful European Conference meeting in Elefsina Greece the 29<sup>th</sup> of January 2015 to 1<sup>st</sup> of February 2015 and the meeting with the cleaning ladies on strike for getting back their jobs and with steelworker's wifes who supported their men on strike convinced us of our necessary struggle for a world without imperialist oppression and patriarchy.

We passed a resolution which says: "Women of the world, empower yourselves by organizing!" This must be the most important lasting result of 8<sup>th</sup> March.

In our conference it became obvious that young women's struggle against patriarchy must be strengthened and we are in solidarity with young women against sexism and patriarchy around the world. The bridges between female generations must be kept strong.

We celebrate the brave female soldiers in Kobanê and their fight against ISIS extremism and fundamentalism against women's rights and human rights.

We strongly protest against rebuilding the power balance in Ukraine between US, EU on one side and Russia on the other side. We support the feminist approach to conflict solutions in the region. We support the people on both sides taking a stand for peace and disarmed solutions in the UN Resolution 1325 intention.

From all our hearts we support the struggle of the majority of the Greek people following the motto "We all are Greek!" This is especially important in view of the severe blackmailing done by

EU, by the Troika.
