

Demonstration at the end of the 1st World Women's Conference in Caracas 2011

## Worldwomen - onwards to 1<sup>st</sup> Mai!

### Onwards to the 2<sup>nd</sup> World Women's Conference 2016 in Nepal!

Worldwide the 1<sup>st</sup> of May is celebrated as a militant day of the workers. In the last years the working-class movement and the manifold social movements united everywhere. And that is a good development! Because the burning issues of unemployment, poverty, lack of perspective among the youth, destruction of the natural environment, diverse threats of war and limitations of democratic rights and liberties are no longer only problems of the working class. They affect the mass of the population! The close alliance of working-class movement and women's-youth-, environmental-movement as well as movement for democracy is necessary more than ever.

This May Day gives a lot of reasons for hope:

- In Kobane the brave fighters defeated the IS!
- In Greece the masses confirmed with electing Syriza: we no longer tolerate the shifting of the burdens of the crisis onto our shoulders!
- In Afghanistan courageous women defy the terror by protesting bravely against the killing of Farchunda.

Under the banner of this strong and united movement, we worldwomen are part of May Day 2015. It is also our day of struggle in heading towards the 2<sup>nd</sup> World Women's Conference in Nepal in March 2016.
