Women of the World ! World women of all continents ! „Women rise for Afrin !“

The Turkish government carries out an invasion against international law in the Democratic Federation of North Syria. Hundreds of thousands of men and women are escaping. The Kurdish women movement calls for an international solidarity campaign „Women rise for Afrin !“.

At our 2. World Women's Conference of grassroots women in Kathmandu / Nepal we decided mutually: Our partnerships across country borders from grassroots to grassroots are a duty that no struggle is left without solidarity.

On 21 March 2018 ICOR (International Coordination of Revolutionary Parties and Organizations) calls for a worldwide day of action „Efrin will live!“

21 March is the day of the Newroz festival, a day of peace and freedom. This day and also other actions on March 24, 2018 (Global Action day for Afrin) are fine opportunities to make good on our promise. „Women rise for Efrin !“ „Efrin will live !“

Let us take over responsibility for actions and alliances and let us show that we fight alongside our Kurdish sisters !

Long live international solidarity !
